

From IBP for E.R. 66

Attachment I - Significant Marine Species

A. Algae

(1. a) Sheltered Bayhead Beach (Maynard Cove)

- *Ulva*
- > *Monostroma*
- ' *Costaria costata*
- > *Desmarestia aculeata*
- > *Rhodymenia palmata*
- / *Rhodomenia pertusa*
- Diatoms (abundant)

substrate of
(sandy mud, cobble, rock fragments)

(Low to Sub Tidal)

- ✓ *Ceramium*
- *Polysiphonia herdryi*
- *Porphyra miniata*
- Marine sea grasses

(1. b) Sheltered Headlands (solid rock substrate) (typical Victoria shore flora)

- *Porphyra*
- *Endocladia*
- *Ulva*
- *Monostroma*
- *Fucus*
- Corallines

- *Ceramium*
- *Polysiphonia herdryi*

2. Rip Current Channels (substrate of sandy mud and large boulders)

A. North-South Channel

- *Rhodymenia palmata*
- *Halosaccion*
- young *Nereocystis*
- *Fucus*

- *Porphyra*
- *Prionitis*

B. East-West Channel

- *Nereocystis leuktaena*
- *Laminaria saccharina*
- *Cymathere triplicata*
- *Costaria costata*
- *Hedophyllum sessile*
- *Spongomorpha coalita*
- *Iridaea*
- *Gigartina exasperata*
- *Corallina*
- *Bossiella*

- *Lithothamnion*
- *Petropeltis*
- *Gigartina papillata*
- *Fucus*
- *Ulva*
- *Monostroma*
- *Microcladia borealis*
- *Endocladia*
- *Cladopeltis furcata*
- *Lobophytis muriata*
- *Bangia*
- *Porphyra*

3. Tidepools (substrate of solid rock and fragments)

- A. Lower
- *Lithothamnium*
 - *Bossiella*
 - *Corallina*
 - *Ulva*
 - *Iridaea*

- B. Upper
- *Prionitis*
 - *Hildenbrandia*

B. Invertebrates

Echinoderms

A. Asteroids

Pisaster ochraceus
Leptasterias hexactis
Henricia leviuscula

B. Echinoids

Strongylocentrotus drobachiensis
Strongylocentrotus franciscanus
Strongylocentrotus purpuratus

C. Ophiuroids

Ophiopholis aculeata
Axiognathus (Amphipholis) squamata
Axiognathus (Amphipholis) pugetana
Amphiodia occidentalis

D. Holothurians

Psolus chitonides
Cucumaria miniata
Eupentacta quinquesemita
Parastichopus californicus
Psolidium bulletum

Marine flora of E.R. #66 Ten Mile Point See A. Stewart 1977

Chlorophyta

Ulva sp.

Rhodymenia pertusa

Rhodoptilum plumosa

Phaeophyta

Agarum fimbriatum

Vascular Plant

Colpomenia sp.

Zostera marina with *Hollenbergia* sp.
epiphytic

Costaria costata

Desmarestia intermedia

Desmarestia ligulata

Desmarestia viridis

Laminaria saccharina + L. Sp.

Nereocystis luetkana

Rhodophyta

Botryoglossum farlowianum

Callophyllis flabellulata + C.sp.

Ceramium sp.

Constantinea subtilifera

Cryptonemia sp.

Cryptopleura sp.

Dilsea californica

Gigartina exasperata + G.sp.

Gracilaria verrucosa

Gymnogongrus leptophyllus

Hollenbergia

Iridaea

Laurencia spectabilis

Neogardhiella baileyi

Odonthalia floccosa

Odonthalia washingtoniensis

Opuntiella californica

Palmaria palmata

Plocamium coccineum var. *pacificum*

Plocamium tenuie

Plocamium violaceum

Polyneura latissima

Polysiphonia sp.

Porphyra sp.

Prionitis lanceolata

Pterosiphonia dendroidea

Rhodymenia californica

Marine flora of E.R. #66 Ten Mile Point See A. Stewart 1977

E.R. #66 - from IBP

3. Tidepools (substrate of solid rock and fragments)

- A. Lower - *Lithothamnium*
 - *Bossiella*
 - *Corallina*
 - *Ulva*
 - *Iridaea*

- B. Upper - *Prionitis*
 - *Hildenbrandia*

B. Invertebrates

Echinoderms

A. Asteroids

Pisaster ochraceus ML
Leptasterias hexactis Pisgah 1982
Henricia leviuscula

B. Echinoids

Strongylocentrotus drobachiensis
Strongylocentrotus franciscanus
Strongylocentrotus purpuratus

C. Ophiuroids

Ophioderma aculeata
Axiognathus (Amphipholis) squamata
Axiognathus (Amphipholis) pugetana
Amphiodia occidentalis

D. Holothurians

Psolus chitonoides
Cucumaria miniata
Eupentacta quinquesemita
Parastichopus californicus
Psolidium bulletum
